

SHARED HOSTING includes all the essentials to get your site up and running quickly. Don't let the price tag fool you -- expert engineers and top of the line equipment make shared hosting a great, low cost option.

Profile

In the shared environment, clients can:

- Take advantage of cost efficiencies by sharing a server with other sites
- Access web files via FTP
- Host CMS400 sites running just about any version as we have shared servers running sites on versions 7.0, 7.5, 7.6, 8.0 and everything in between
- Scale -- add power (disk space, bandwidth, etc.) as needed

Friends

Shared plans are great for sites with lower traffic requirements and fewer content authors.

Some of WSOL's shared CMS400 hosting clients include:

Kanabec Hospital

Montana Nonprofit Association

Viva -- Together for Children

Village of Woodridge, Illinois

Plans

Basic Plan \$199 setup, \$99 per month
